

Dear NAWIC Friend,

On March 9th, the Greater Rochester Chapter of NAWIC will host our 9th annual Guest Bartending Event. We are thrilled to return to an in-person event, held at Capone's Bar & Italian Eatery at 1517 Empire Blvd. Webster, NY 14580. With your sponsorship, more women will be able to continue their education and work in the construction industry.

The National Association of Women in Construction (NAWIC) originated as Women in Construction of Fort Worth, Texas. Sixteen women working in the construction industry founded the group in 1953 to create a support network for women working in a male-dominated field. The group was so successful that it gained its national charter in 1955 and NAWIC was born. Currently, NAWIC has approximately 6,000 members and close to 200 chapters representing nearly all 50 states with international affiliation agreements in Canada, Australia, New Zealand, and most recently South Africa.

NAWIC's core purpose is to strengthen and amplify the success of women in the construction industry. Our association is committed to championing women to impact the direction of the industry. NAWIC provides education, community, and advocacy for women. Since 1991, the Greater Rochester Chapter of NAWIC has awarded over \$80,000 dollars to women entering the construction industry through our Scholarship fund. In 2020, following the passing of long-time NAWIC member and pillar in the Rochester construction community, Pat Hynes, our scholarship was renamed in her honor. **With your help in 2022, we were able to achieve our fundraising goal and more than double our scholarship amount to \$3,500!**

According to a recent study, women comprise only 10.3 percent of all people in construction – with even smaller representation on the front lines of a job site (only one for every 100 employees in the field). Even though women make up 47 percent of all employed individuals, the construction industry only benefits from approximately 1.25 percent of women in the workforce.

There are several factors that account for this alarming gender gap, from unconscious bias and lack of training, to the overall perceptions of women working within the construction industry. However, women continue to overcome these hurdles in the face of adversity. As the labor market continues to tighten, it has become increasingly important to diversify the construction industry.

Sponsors will be acknowledged at the March 9th event and across all social media outlets, offering maximum exposure. Included in this packet you will find information on how to become a Pat Hynes Memorial Scholarship Fund sponsor for our 2023 event, a fun-filled evening featuring your favorite local construction industry guest bartenders. Thank you for your consideration.

With Gratitude,

Audrey & Wackerman
